Summary

Product and UI/UX designer focused on SaaS interfaces, role-based CRM workflows, dashboards, and reusable design systems. Combines an engineering background with UX design, developer handoff, and Vue frontend implementation.

Experience

UI/UX Designer | GolderaPharm

Jan 2026 - May 2026

Remote, Full-time

- Designed role-based CRM workflows for Managers, Supervisors, and Medical Representatives, including approximately 50 interface screens.
- Created reusable dashboard components and a design system, and delivered organized Figma files and handoff documentation for frontend implementation.

Graphic Designer | Cela

Jan 2024 - Jun 2024

Remote, Part-time

- Designed posters, logos, and campaign assets using Photoshop, Illustrator, and Canva.

Selected Projects

SmartMeet | ITI Graduation Project

UI/UX Design & Frontend Development | Developed Prototype

- Designed meeting-review interfaces, summaries, decisions, and task-board workflows in Figma.
- Developed Vue frontend components and state management; collaborated with the team on API integration.

WeCare | Healthcare UX Exploration

UI/UX Design | Figma Prototype

- Designed doctor discovery, appointment scheduling, and confirmation flows, with consultation prices visible before booking.
- Created reusable mobile components and a clickable Figma prototype.

HMZ | E-learning Team Project

UI/UX Design | Figma Prototype

- Designed course discovery, course details, and learner-dashboard interfaces.
- Created personas, a site map, user flows, wireframes, and reusable Figma components with the project team.

Professional Training

Information Technology Institute (ITI) | UI/UX Development, Round 2

Completed Jul 2026

UI/UX design, user flows, wireframing, prototyping, responsive design, Figma, design systems, Vue.js, Node.js, MongoDB, REST APIs, Git, and GitHub.

Education

Suez Canal University | B.Sc. Computer and Control Engineering

Graduated Jul 2025

Final Grade: Very Good
