Summary

UI/UX Designer with experience designing user-centered web products, role-based CRM workflows, dashboards, reusable components, and design systems. Combines UX process work—including personas, site maps, user flows, wireframes, and prototypes—with strong visual design and developer-handoff skills.

Experience

UI/UX Designer | GolderaPharm

Remote, Full-time | Jan 2026 – May 2026

- Designed an implemented pharmaceutical CRM experience for Managers, Supervisors, and Medical Representatives.
- Created end-to-end user flows and approximately 50 high-fidelity interface screens.
- Designed operational dashboards, reusable UI components, and a design system for consistent role-based experiences.
- Delivered organized, developer-ready Figma files used for front-end implementation.

Graphic Designer | Cela

Remote, Part-time | Jan 2024 – Jun 2024

- Designed posters, logos, and advertising assets for client-facing campaigns.
- Produced visual assets using Adobe Photoshop, Adobe Illustrator, and Canva.

Projects

SmartMeet | ITI Graduation Project

UI/UX Design

- Designed the user experience and interface for an AI-powered meeting and collaboration platform.
- Created product interfaces and supporting visual assets using Figma, Adobe Photoshop, and Adobe Illustrator.
- Collaborated within a multidisciplinary graduation project that progressed from design to front-end and back-end implementation.

GolderaPharm | Pharmaceutical CRM

UI/UX Design

- Designed end-to-end role-based workflows for Managers, Supervisors, and Medical Representatives.
- Built dashboard patterns, reusable UI components, and developer-ready Figma documentation for implementation.

HMZ | E-learning Platform

UI/UX Design | Team Project

- Designed an E-learning web experience covering course discovery, course details, learner dashboard, leaderboard, chatbot, and authentication flows.
- Created personas, site map, user flows, wireframes, and an icon library as part of the UX case study.
- Built reusable Figma components and visual styles to maintain consistency across the product.

Professional Training

Information Technology Institute (ITI) | UI/UX Development, Round 2

Completed Jul 2026

UI/UX design, user flows, wireframing, prototyping, responsive design, Figma, design systems, Vue.js, Node.js, MongoDB, REST APIs, Git, and GitHub.
